

1. Stream Created Embed

Plain text before embed: <@ID for stream officer> <@user> (user here is the model selected)

Author: Tag user who used command (can be admin or model)

Author Icon URL: Profile picture of the user above

Thumbnail URL: Server icon

Title: ♦ Stream Tracker Log ♦

Description:

A new stream has been registered. Details are below—please follow the workflow until the due date. ♦

Model: <@{option_user_id}>

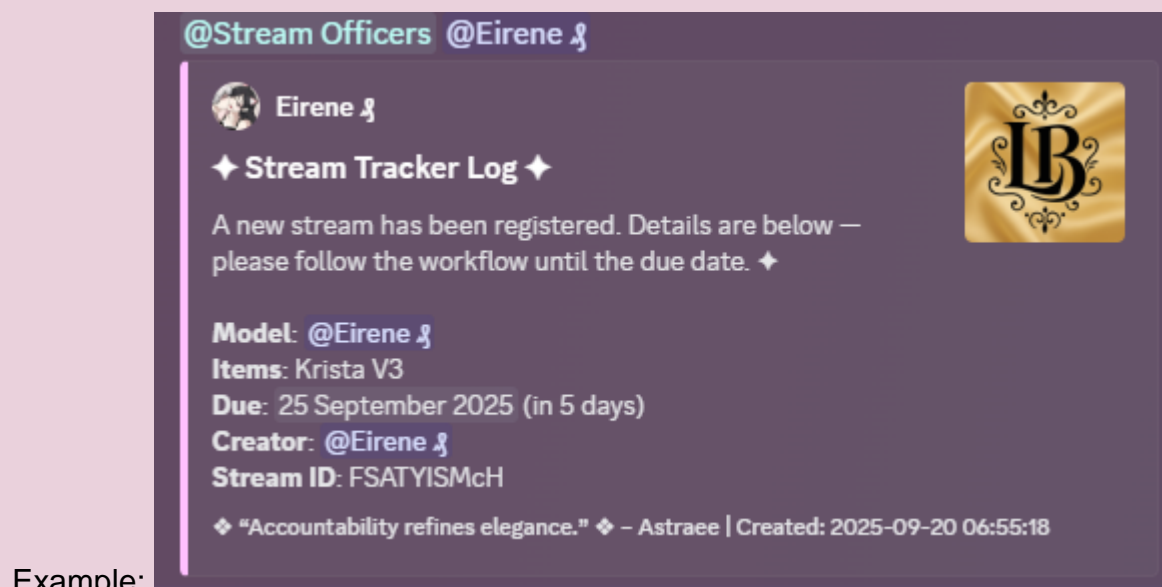

Items: {option_items}

Due: <t:{BGVAR_due_unix}:D> in {option_due_days} days

Creator: (Tag creator)

Stream ID: (10 Randomly generated characters, unique)

Footer: ❖ Even the stars follow patterns of order. ❖ - Astraee | Created: (unix to iso time now)

2. Stream Created DM (Sent to User's DMs)

(Can be a regular message as before. See example.)

Title: ✦ Greetings, radiant star! ✦

Description:

Your L&B stream has been created. Retain these details for your records and use them with `/completestream` when complete:

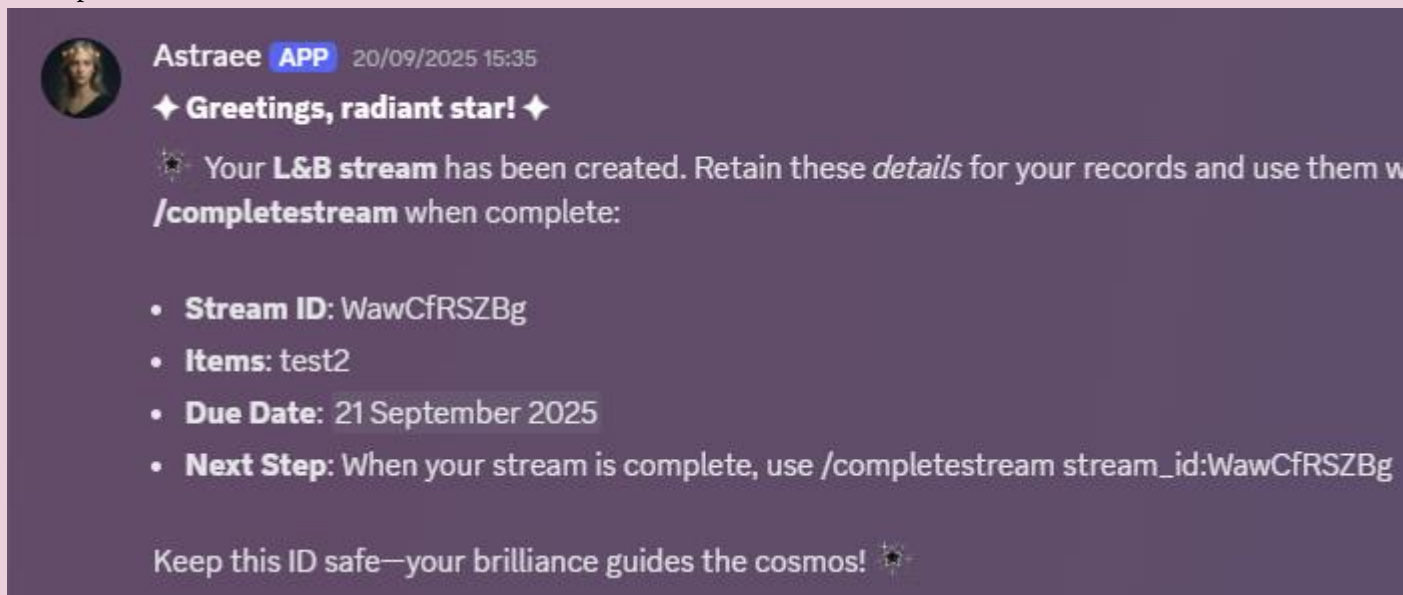

- **Stream ID:** {stream_id}
- **Items:** {items}
- **Due Date:** <t:{due_unix}:D>

Next Step: When your stream is complete, use `/completestream stream_id:{stream_id}` to mark it done.

Keep this ID safe—your brilliance guides the cosmos!

Footer: ❖ The stars shine brightest with your care. ❖- Astraee | Created: <t:{time.now_unix}:D>

Example:

3. No Active Streams Embed (Reply to Command when no active streams)

Title: ✦ Active Streams Overview ✦

Description:

There are currently no active streams in the constellation. Check back when new collaborations align.

Footer: ❖ Even the stars rest in quiet moments. ❖ - Astraee | At: {time_now_unix}

4. Active Streams Embed (Reply to Command)

Author: Server name

Thumbnail URL: Server icon

Title: ♦ Active Streams Constellation ♦

Description:

Behold the current alignments:

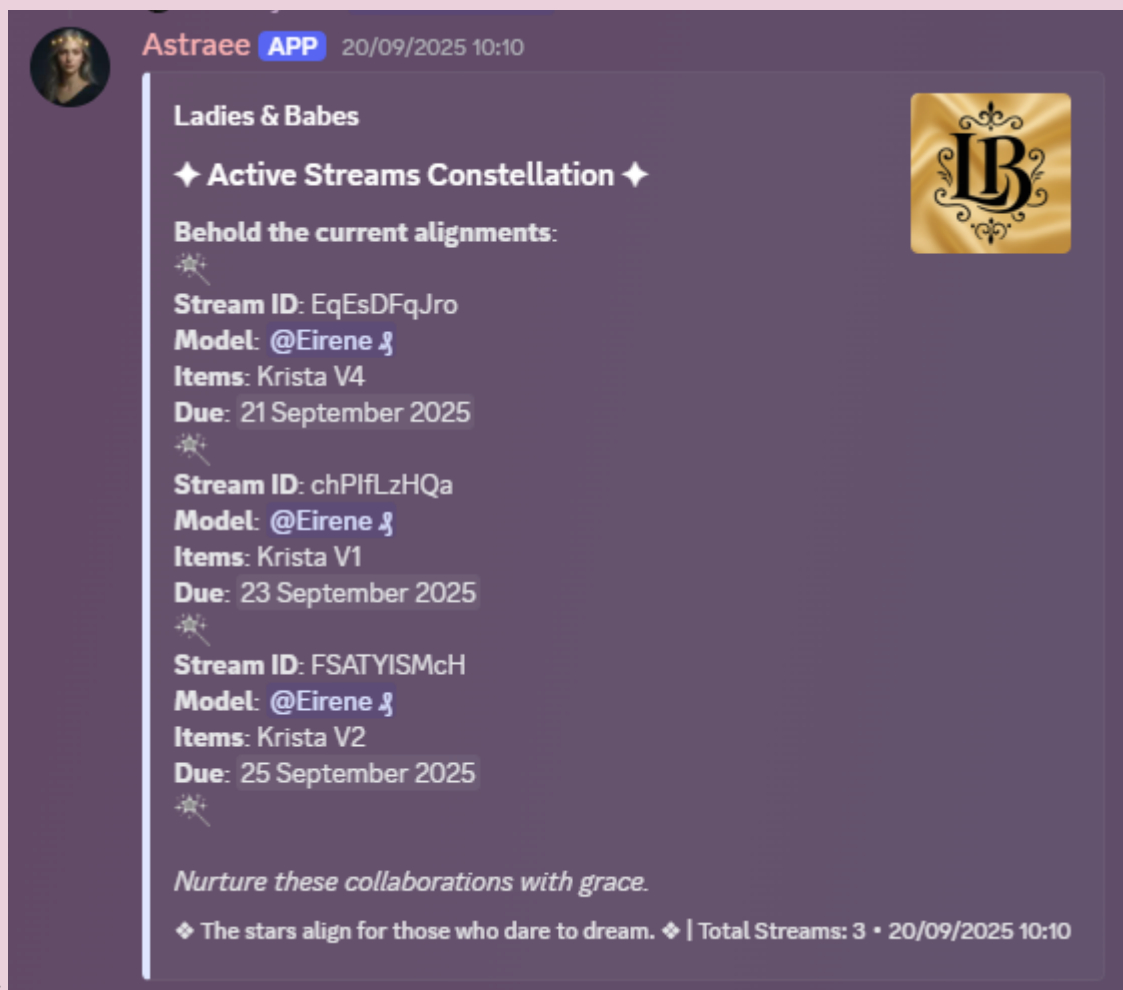

{active_list}

Nurture these collaborations with grace.

Footer: ❖ The stars align for those who dare to dream. ❖ - Astraee | Total Streams: {num_streams}

Time variable: {time_now_unix}

Example:

The screenshot shows a Discord message from a user named Astraee (APP) sent on 20/09/2025 at 10:10. The message contains an embed titled "Ladies & Babes" with a subtitle "♦ Active Streams Constellation ♦". The embed features a yellow square thumbnail with a black "LB" monogram. The main content of the embed lists three active streams, each preceded by a star icon. Each entry includes the Stream ID, Model (@Eirene), Items (Krista V4, V1, V2), and Due date (21, 23, and 25 September 2025). The embed concludes with the text "Nurture these collaborations with grace." and a footer that reads "❖ The stars align for those who dare to dream. ❖ | Total Streams: 3 • 20/09/2025 10:10".

Astraee APP 20/09/2025 10:10

Ladies & Babes

♦ Active Streams Constellation ♦

Behold the current alignments:

★

Due: 25 September 2025

Nurture these collaborations with grace.

❖ The stars align for those who dare to dream. ❖ | Total Streams: 3 • 20/09/2025 10:10

5. Stream Complete Embed (Posted to #stream-tracker Channel)

Author: Server name

Thumbnail URL: Server icon

Plain Text: <@Stream officer role ID>

Title: ♦ Stream Completion Log ♦

Description:

A stream has reached its harmonious end. Details below:

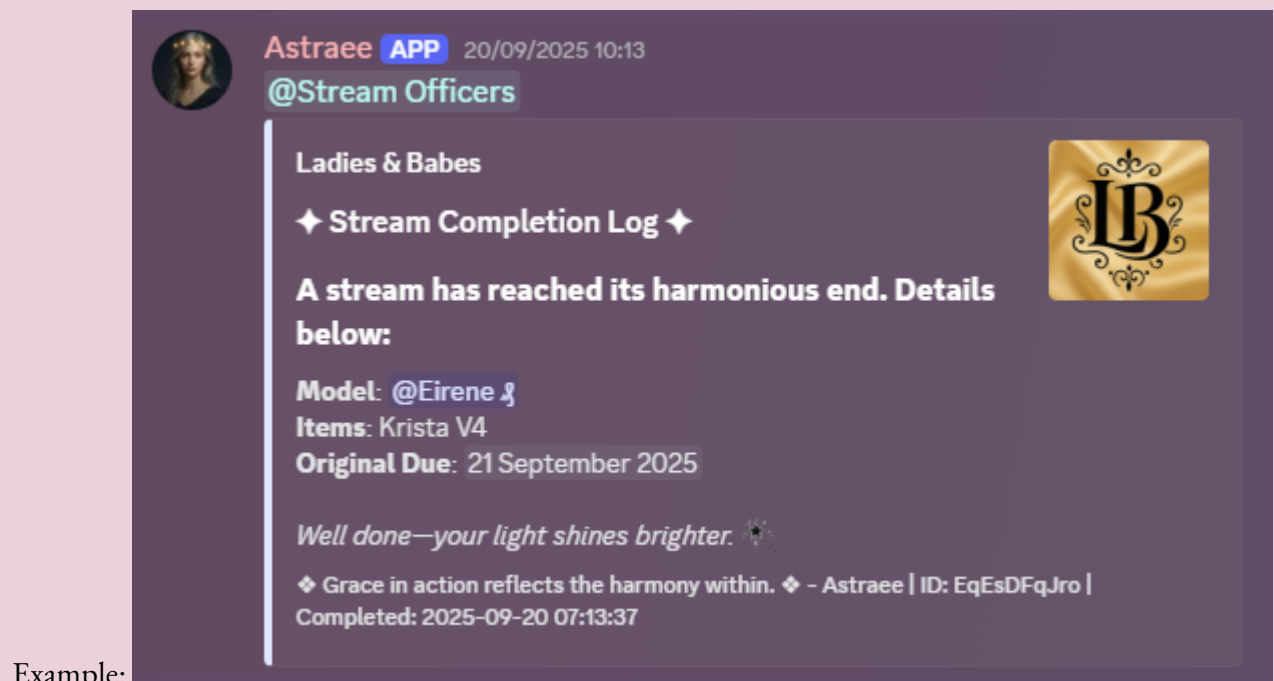

Model: <@{complete_user}>

Items: {complete_items}

Original Due: <t:{complete_due}:D>

Well done—your light shines brighter.

Footer: ♦ Grace in action reflects the harmony within. ♦ - Astrae | Stream ID: {stream_id} | Completed: <t:{time.now_unix}:F>

6. Stream Not Found Embed (Reply to Command)

Title: ✦ Stream Not Found ✦

Description:

No alignment matches that ID. Verify and try again.

Footer: ❖ Patience is the finest art. ❖ - Astraee

7. Stream Reminder Embed (Posted to #stream-tracker Channel)

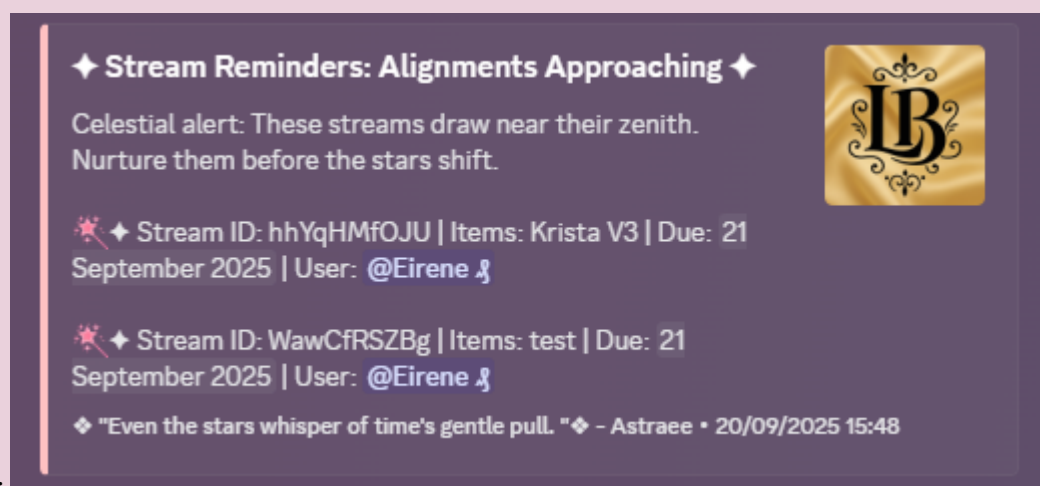

Title: ✦ Stream Reminders: Alignments Approaching ✦

Description:

Celestial alert: These streams draw near their zenith. Nurture them before the stars shift.

{reminder_list}

Footer: ❖ Even the stars whisper of time's gentle pull. ❖ - Astraee | {time.now}

Example:

8. Stream Reminder DM Embed (Sent to User's DMs)

Title: ✦ Stream Reminder ✦

Description:

Radiant one, your stream {stream_id} approaches its due: <t:{due_unix}:D>. Items: {items}. Complete with /completestream when ready.

Note:

Replace all variables and fields accordingly. You may edit and refine as you see appropriate. This is just a reference of the old.
